## CONSUMER & FAMILY SCIENCES PROGRAM

The mission of Purdue Extension Consumer and Family Sciences is to provide informal educational programs and educational materials that improve the quality of life for individuals, families and communities. These programs influence attitudes, teach skills, increase knowledge, and inspire aspirations.

Penny Troutman  
Extension Educator, CED/CFS

## 4-H YOUTH DEVELOPMENT

Through 4-H programs in virtually every community in the state, we help young people learn leadership and citizenship, develop life skills, and form attitudes that help them become productive members of society with high self-esteem. We involve parents, volunteers, and professional staff who create educational opportunities in family and community settings.

Lynn Korniak  
Extension Educator, 4-H Youth

## AGRICULTURE & NATURAL RESOURCES

We provide lifelong education, training, and technical assistance to people and businesses with agricultural and natural resource-related interests. Emphasis is on environmentally sound techniques for food and fiber production, competitive farm business management, marketing and processing of agricultural products, and natural resource management.

Shane Hanna  
Extension Educator, ANR/ECD
