

Welcome, July!

2025 Purdue Small Farm Education Field Day, West Lafayette, IN

Photo: Petrus Langenhoven

July is a busy month for Indiana farmers as the growing season reaches its peak. Specialty crop growers are often focused on irrigation, fertility management, and harvest of early- and mid-season crops, while continuing succession plantings for fall production. With high temperatures and increased sun, crops can grow rapidly and become stressed, which makes regular field scouting important.

Weed control remains a priority, and producers should continue monitoring for insects, diseases, and other issues that can impact crops. Hot, humid conditions can create favorable environments for pests and diseases, so timely management decisions can help prevent larger problems as harvest ramps up.

High tunnels and greenhouses require close attention to ventilation and irrigation as summer heat peaks, alongside active harvest management. Blueberries, brambles, and other small fruits are in full swing. Growers should remain alert to weather challenges, including heavy rainfall, hail, drought stress, and periods of extreme heat.

Purdue Extension will be hosting field days, workshops, and on-farm demonstrations throughout the summer. These events offer great opportunities to learn about current research, see new practices in action,

and connect with fellow producers. Watch your local Extension newsletters and social media updates for upcoming events and registration details.

As always, Purdue Extension is here to support Indiana farmers with research-based information and practical resources. Stay connected, monitor crop conditions closely, and don't hesitate to reach out to your local Extension office with questions throughout the growing season.

**FRUIT AND VEGETABLE
FIELD DAY**

JULY 16, 2026

Register now at
purdue.ag/fruit-veg-field-day

2026 Purdue Fruit and Vegetable Field Day

Join Purdue Extension and the Department of Horticulture and Landscape Architecture for the annual Fruit and Vegetable Field Day. This hands-on educational event connects fruit and vegetable growers, Extension educators, and industry professionals with the latest Purdue specialty crop research through field demonstrations and expert-led sessions covering high tunnel production systems, pollinator management, soil health strategies, and weed and pest control methods.

Attendees will learn directly from Purdue specialists, network with fellow producers, and discover practical solutions — whether that's a new variety, a refined production practice, or a new connection with others in the field.

Questions about the event may be directed to Lori Jolly-Brown at ljollybr@purdue.edu.

Event Details

- Date: Thursday, July 16, 2026
- Time: 9:00 a.m. – 1:00 p.m. ET
- Location: Meigs Horticulture Research Farm (Throckmorton Purdue Agricultural Center), 9101 S. 100 E., Lafayette, Indiana
- Cost: \$48 (includes lunch from Great Harvest Bread Co.)
- Full agenda available after May 1 at vegcropshotline.org/purdue-fruit-and-vegetable-field-day.

2026 Purdue Small Farm Education Field Day

Join Purdue Extension and the Department of Horticulture and Landscape Architecture, in partnership with the Purdue Student Farm, for the annual Small Farm Education Field Day. This hands-on learning event brings together small farm operators and urban growers from across Indiana for demonstrations and presentations on flower production, high tunnel production and management, integrated pest management, food safety, and vertical container farming.

The day's structure is designed to foster exchange of practical knowledge and relationship-building — organizers note that attendees regularly return home and put new techniques to work on their own farms and gardens.

Questions about the event may be directed to Lori Jolly-Brown at ljollybr@purdue.edu or **765-494-1296**.

Event Details

- Date: Thursday, July 23, 2026
- Time: 9:00 a.m. – 1:00 p.m. ET (registration 8:00–9:00 a.m.)

- Location: Purdue Student Farm, 1491 Cherry Lane, West Lafayette, Indiana
- Cost: \$48 (lunch not included; a food truck will be on-site)
- Full agenda available after May 1 at vegshotline.org/purdue-small-farm-field-day

2026 National Walnut Council Annual Meeting

Join Purdue Extension and the National Walnut Council for an immersive learning experience focused on forest management in Warsaw, Indiana, a region known for its glacial lakes and one of the largest Amish communities in the United States. Participants will gain valuable insights from forestry experts, engage in hands-on learning opportunities, and connect with professionals and landowners interested in sustainable forest management and walnut production.

For additional information about the meeting and program activities, visit the National Walnut Council website.

Event Details

- **Dates:** July 26–28, 2026
- **Location:** Warsaw, IN
- **More Information:** <https://walnutcouncil.org/events/annual-meeting/>

HARMONIZED GAP TRAINING & CERTIFICATION COST-SHARE

Ensuring safe, high-quality produce is a shared priority for Purdue's Safe Produce Indiana program and the Indiana State Department of Agriculture. Access training on proper handling, storage, and food safety protocols, and take advantage of cost-share funding to offset the cost of Harmonized GAP certification.

LEARN MORE 

Harmonized GAP Cost-Share Certification Program

The Indiana State Department of Agriculture is thrilled to partner with Purdue's Safe Produce Indiana to launch a Harmonized GAP Cost-Share Certification Program.

This initiative helps Indiana growers reduce the financial burden of obtaining Harmonized GAP certification, supporting on-farm food safety and expanding market opportunities.

To learn more or express interest in participating, complete the interest form below.

Questions may be directed to Dr. Amanda Deering (adeering@purdue.edu) or Caroline Patrick (cpatrick@isda.in.gov).

Program Details

- Partners: Indiana State Department of Agriculture (ISDA) & Purdue's Safe Produce Indiana
- Purpose: Cost-share support for Harmonized GAP certification

2026 Appropriate Technology Field Day

The Organic Association of Kentucky (OAK), the University of Kentucky's Center for Crop Diversification (UK CCD), and the Kentucky Horticulture Council (KHC) are hosting an Appropriate Technology Field Day at the UK Horticulture Farm in Lexington.

The day will feature educational sessions, field demonstrations, and a trade show highlighting transplant production systems in the greenhouse and walk-behind and tractor-mounted seeding and transplanting tools in the field. There will be ample opportunity to observe equipment up close and running, compare options, and try various tools.

Lunch is included with your ticket and will feature local food from The Food Connection.

Event Details

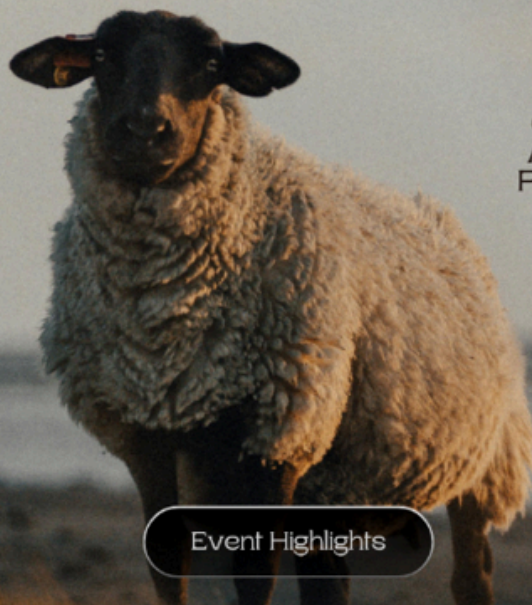

- Date: August 25, 2026
- Location: UK Horticulture Farm, Lexington, Kentucky

Indiana Flock Exchange

Join us on
Sunday, July
26th from 2-7
pm

Creighton Hall of
Animal Sciences,
Purdue University

Event Highlights

Discounted FAMACHA

Signs of anemia
Parasite management
Reduced parasite
resistance

BOAH update

Issues affecting sheep
production in Indiana

Producer Panel

Flock health experiences
Connections and
networking

Reserve now before slots fill up

The Indiana Flock Exchange

Presented by the Indiana Sheep Association and Sheep and Wool Checkoff, this workshop series is led by Purdue's new Small Ruminant Extension Specialist, Coro Reibnoit. Taking place in three different regions of the state during three different months in 2026, these sheep health workshops will focus on parasites and other current sheep health concerns.

Event Highlights

- Discounted FAMACHA Training — get certified in FAMACHA, a \$30 registration value included in your \$10 registration fee. Learn to spot the signs of anemia in sheep indicating parasites and recover the materials you'll need to practice FAMACHA in your flock, reducing your chance of parasite resistance.
- Indiana Board of Animal Health on current sheep health issues — a representative from BOAH will be speaking at each event on health issues impacting sheep specifically in the Hoosier State.

- Experienced Producer Panel — hear from experienced producers in the region about their flock health experiences and connect with fellow shepherds during dinner.

Cost: \$10 per person, includes dinner

Questions about the event may be directed to executive@indianasheep.com or [317-607-5664](tel:317-607-5664).

Event Dates and Locations

- Sunday, July 26, 2026 — Creighton Hall of Animal Sciences, Purdue West Lafayette Campus
- Sunday, September 13, 2026 — Southern Indiana Purdue Ag Center
- Sunday, November 22, 2026 — Pinney Purdue Ag Center

CORRIDORS THROUGH THE CORN BELT

Field Day at Bundle Sticks Farm

Small changes on your land can create big wins for Indiana wildlife!

Thoughtful habitat planning can improve soil resilience, protect water resources, support native species, and contribute to long-term land protection.

Join us on July 27, 2026 for an informative field day focused on pollinators and wildlife habitat hosted by Bundle Sticks Farm and American Farmland Trust, with generous support from Nina Mason Pulliam Trust.

Presentations from Pollinator Partnership, Harrison County Soil & Water Conservation District, and Help the Hellbender will discuss native seed selection, soil health and water quality, and how to protect one of our region's most unique species, the Eastern Hellbender.

We'll wrap up the day with a farm tour and see habitat practices in action.

The event is free, but registration is required. An informal lunch will follow, and each attendee will receive a free native plant.

Register today at: <https://forms.office.com/r/JGijKEfppY>

Warmly,

Anna Sekine

Midwest Farmland Associate

Date:

July 27, 2026

Time:

10 a.m. to 1 p.m. EST, informal lunch to follow

Location:

Bundle Sticks Farm, 7601 Hess Jawtak Rd NE, Lanesville, IN 47136

2026 Broomcorn Field Day

For small and diversified farmers, curious grain farmers, and crafters: join the Indiana Organic Network for a field day exploring a novel crop for organic transition — broomcorn. Hosted by the farmers and crafters at Bundle Sticks Farm, attendees will get to know this unique, high-value variety of *Sorghum bicolor* and learn how it is suited to preparing land for organic production while increasing the domestic supply of broom-making materials.

Bundle Sticks Farm is a small, diversified farm focused on raising crafting materials, including broomcorn, cut flowers, willow, sheep, and native plants.

This event is free to attend and lunch will be provided! We appreciate SARE's support of this work through the Farmer Rancher grant program.

Visit the Indiana Organic Network events page for more information: https://extension.purdue.edu/anr/_teams/dffs/organic_ag/ion/ion-events.html

Questions may be directed to [765-496-6362](tel:765-496-6362).

Event Details

- Date: Monday, August 10, 2026 (rain date: August 17, 2026)
- Time: 8:30 a.m. – 1:30 p.m.

Summer in the Cities Buyers Mission

Indiana food and beverage companies are invited to join Food Export USA's Summer in the Cities Buyers Mission in Indianapolis. Meet with 17+ international buyers seeking U.S. products and explore your export potential without leaving the state.

Why Participate

- One-on-one, pre-scheduled meetings with vetted international buyers
- Onsite consultations with Food Export's In-Market Representatives
- Networking lunch included
- Proven results: \$9.72M in sales generated through this event in 2025
- Even if your company doesn't generate immediate sales, it's a valuable chance to explore your product's global potential
- Exclusive ISDA assistance leading up to the event to help companies feel prepared for their meetings

Products of Interest: snacks, beverages (alcoholic & non-alcoholic), ready meals, oils/fats, nuts, dairy products, meat products, sauces, spices, confectionery, and more.

Questions about the event may be directed to ISDA International Trade Director Megan Bixler at MeBixler@isda.in.gov.

Event Details

- Date: August 12, 2026
- Location: Hilton Garden Inn, Indianapolis
- Cost: \$400 per company

CENTRAL

by  GLEANERS

Food Sourcing & Operations Conference: The Power of Partnerships

Join Fresh Connect Central for the Food Sourcing & Operations Conference, centered on The Power of Partnerships and the momentum created when people come together with a shared purpose. This three-day experience brings leaders into the same room to exchange ideas, learn from one another, and spark new possibilities across food sourcing and operations.

Designed to be open, engaging, and experience-driven, the conference blends hands-on learning with meaningful connections. Space is limited.

Who Should Attend

Designed for food bank leaders and hunger relief professionals. Breakout sessions are organized around four focus tracks:

- Sourcing to Support Programs
- Operations & Logistics
- Innovation & Technology
- Funding the Mission

Schedule Highlights

- Tuesday, Aug. 18: optional food bank tour at Gleaners Food Bank (2 p.m.), followed by a welcome reception at the Westin
- Wednesday, Aug. 19 – Thursday, Aug. 20: official conference programming
- Wednesday evening: night out at the Indianapolis Indians AAA baseball game

Event Details

- Dates: August 18–20, 2026

- Location: The Westin Indianapolis (host hotel and conference hub)
- Cost: Free to attend (travel and lodging are attendees' responsibility)
- Attire: Casual (organizational apparel encouraged)
- Hotel room rate: \$209/night plus taxes and parking; reservations due by July 24, 2026

New digital agriculture course launched

Agriculture is evolving rapidly, and Purdue University's College of Agriculture is helping professionals keep pace with a new 100% online Digital Agriculture course. Designed for agricultural input suppliers, equipment dealers, educators, growers, and anyone eager to expand their understanding of modern farming, this 10-module program explores how precision farming, data, AI, and automation are reshaping the way food, feed and fiber are produced. From learning GPS guidance systems to data-driven decision making, participants gain the skills needed to navigate today's technology-rich landscape. As farms face tight margins and increasing demands for efficiency, this course provides the knowledge to stay ahead.

2026 Urban Food Systems Symposium: Cultivating Communities, Cities, and Food Systems

Join researchers, educators, nonprofit professionals, government leaders, and food systems practitioners from across the United States and around the world for the 2026 Urban Food Systems Symposium. This multi-day event provides a unique opportunity to share knowledge, explore emerging research, and engage in discussions that advance urban food systems.

The symposium welcomes a wide range of abstract submissions, including academic research, policy-focused work, educational initiatives, and programmatic innovations. Whether you are conducting research, developing community programs, or shaping policy, this event offers a platform to exchange ideas and build meaningful connections.

Questions about the symposium may be directed to UFSS@ksu.edu.

INDIANA HORTICULTURE AND SMALL FARM CONFERENCE

*PLANT IDEAS.
BUILD CONNECTIONS.
GROW YOUR OPERATION.*

Purdue University is an Equal
Opportunity/Equal Access University.

Jan. 26-28 *Hendricks County Fairgrounds - Danville, Indiana*

We're pleased to announce that Purdue Extension will host the Indiana Horticulture and Small Farm Conference in January 2027. Please mark your calendars for January 26–28 in Danville, Indiana.

Our planning committee has already begun organizing the conference, and we would greatly appreciate your input. We welcome your suggestions for speakers, topics, panels, and more. Our goal is to ensure this conference meets the needs of Indiana's growers, so please take a moment to complete the survey and share what would be most helpful to you.

Do you enjoy speaking? Have you conducted on-farm research or implemented an innovative practice that has made a positive impact? If so, we encourage you to nominate yourself as a speaker.
