For 4-H Exhibit Hall projects to be eligible, they must have been completed after the close of the previous fair and not previously exhibited at the Floyd County Fair or any other 4-H Fair.

Project guidelines may be updated each year. Check the guidelines for projects that have extra paperwork needed to accompany project. Call the Extension Office or your leader for further assistance.

If a 4-H member chooses to exhibit in a lower grade level than their current grade level, the judge will grade the project by its own merits and the highest ribbon placement can only be a blue ribbon. A 4-H member may exhibit in a higher level, but may not return to a lower level. Special situations will be addressed and adjusted by the Youth Educator following the individual needs of the member.

If a 4-H'er enrolls in the most advanced project division, they may repeat the last division available again as long as you do not enter the same exhibit twice. Enter a different exhibit each year. Enrollment is limited to 3 years in one level unless special needs pertain to repeated levels.

IN THE EVENT GUIDELINES ARE NOT IN THIS HANDBOOK, THE STATE FAIR HANDBOOK/WEBSITE RULES AND GUIDELINES WILL BE FOLLOWED. IF NO GUIDELINES EXIST, THE 4-H CORPORATION BOARD AND THE 4-H YOUTH EXTENSION EDUCATOR WILL MAKE THE FINAL DECISION.

Foods: see National Center for Home Food Preservation: <https://nchfp.uga.edu/>

Beginning in the year 2000, all county and state fair handbooks must contain the entire policy as stated below:

For Food Competitions: Fillings, frostings, glazes, and meringues are not permitted to contain cream cheese, sour cream, heavy cream, or whipped cream if they are not fully cooked/baked. These items are allowed as ingredients in food products IF the final product is cooked/baked. Additionally, raw milk, raw milk products or uncooked eggs/egg whites are not permitted. Eggs/egg whites that have been cooked to 160°F (i.e. pasteurized or included as part of a batter and baked) are acceptable. No home- canned fruits, vegetables, or meats are permitted as ingredients in food products.

Fresh-cut, uncooked, fruits and/or vegetables are not permitted to be used in food products or used as garnishes for the product. Foods should be transported to the competition in a way that minimizes contamination and maintains the quality of the food (i.e. foods that are judged as frozen should remain frozen at all times).

Recipes must be provided that identifies all ingredients that were used in each part of the product. Any ingredient that could be a potential allergen must be clearly identified. Each

food product must be labeled with the following information:

- Name
- Address
- Contact information (phone and/or email address)
- Date the food product was made

Contestants should carefully **wash their hands** and make sure that their hands do not have any open cuts before preparing foods. If cuts are present, the wound should be bandaged and a single use food service glove worn on the hand during all stages of food production. Contestants should not be preparing food exhibits for competition within 48 hours of recovering from any illness. People experiencing symptoms of vomiting, diarrhea, fever, and/or jaundice should not be allowed to prepare food.

Judges and individuals who will consume products from county and/or state competitions should be informed that they are at risk for foodborne illness since the established policy cannot guarantee that an entry has been properly prepared or handled before, during or following the competition. The food products for competitions are home produced and processed and the production area is not inspected by the Indiana State Department of Health.

Tasting of a food product is solely at the discretion of the judge and consumers. Judges are NOT to taste any home preserved foods such as low-acid or acidified foods like green beans, tomatoes or tomato products, jams/jellies/fruit preserves or fermented products produced in the home.

Electric Kits

4-H'ers may purchase prepackaged kits directly from EE in a Box, <https://shop.eeinabox.com/main.sc>, or call the Extension office for availability. EE in a Box order form is located on the [4-H Electric](#) web page under "Other".

Youth may exhibit a product of their choice demonstrating appropriate skills and are not confined to exhibiting a specific item. Activity sheets are posted on the [4-H Electric](#) page youth can complete in order to develop skills. Each activity includes a supply list. Supplies can be purchased by an individual, or a business.

POSTER TIPS

1. Poster Board – any color is acceptable; however, fluorescent is not suggested.
 - Experiment with color. Example: use earthy colors (light brown, natural, greens, rust) for wildlife or photography.
2. Mounting Adhesives – The best is rubber cement. It leaves no marks and won't wrinkle the paper. Excess can easily be rubbed off after cement dries. Do not put plastic covering over poster where rubber cement has been used until completely dry. The fumes will bubble the plastic, ruining it. Rubber cement may discolor photos if it is not Acid Free, be sure to check label. Double stick tape is best for leaves and is quick. White glue should be used only in cases where wrinkling or damage will not occur.

3. Colored Pencils – The best are soft leaded - easy to color and blend easily (can be purchased at art stores). Strokes will not show if handled properly. Hard leaded pencils are less expensive but are more difficult to use
4. Plastic Tape – Not necessary but makes attaching poster board to stiff backing easy. Available in many colors (cloth or plastic) and available at discount stores. When using wider tape, approximately 1" wide, it can be applied so that the extra wraps around creating a border for the poster.
5. Lettering – Purchased lettering may be used as well as stencils, self-adhesive letters or press type, computer generated, or hand lettered are all acceptable forms of titling and labeling posters. Be sure whatever form is chosen that the letters are applied straight, neatly and are easy to read. Your title should catch people's attention. Think creatively and as if you are marketing your idea. What would you stop to look at? What do you want to know?
6. Labels:
 - Information labels –cardstock works exceptionally well. It is attractive and sturdy for gluing without bubbles or crinkles. Typed is best for easy reading and looks neater.
 - Check manual for size, some projects are specific.
 - Check project guidelines and project manuals for information that needs to be included.
 - Pre-printed exhibit labels (name, project, grade, & club) will be given to exhibitors at project check-in. These should be affixed in lower right-hand corner of poster board.

Most important - be creative and think about what would make a poster unique and encourage people to stop and look at it. Part of attracting people is being neat and easy to read making it fun to view.

GRIEVANCE/APPEAL GUIDELINES FOR COUNTY 4-H PROGRAM ISSUES (ACTIVITIES, PROGRAMS, PROJECTS)

The grievance procedures outlined in this document are utilized as part of an internal process of the Indiana 4-H Youth Development program when grievances of 4-H members, their parents/guardians, or 4-H volunteers cannot be resolved via reasonable conversation. This policy affords the opportunity in those unique situations to allow voice or opinion to be heard when there is a dispute regarding 4-H participation, activities or programs. **This is not a mechanism for complaints against individual 4-H members (or their families), 4-H volunteers, judging officials for competitive events, or Purdue Extension staff.** All resulting decisions will be made in accordance with the Indiana 4-H Program's stated mission to be an inclusive organization designed to encourage and maximize youth participation. The rights of the individual filing the grievance are limited to those provided by Indiana 4-H Program policy.

SUBJECT TO CHANGE - last updated 4-22-2025

Purdue University, as the Land Grant University in Indiana, is charged (by the United States Department of Agriculture) with implementing the 4-H Program in communities across the State of Indiana.

Purdue Extension Educators in each Indiana county represent the university in local communities and have the responsibility of assuring all 4-H volunteers meet basic university criteria as they serve as representatives of the university. Purdue Extension Educators additionally provide oversight to 4-H volunteers including the assurance that Indiana 4-H Policies and Procedures are appropriately implemented in 4-H Program delivery.

Individual county 4-H policies and procedures should be created and reviewed to assure they do not contradict established statewide 4-H policies and procedures. If a contradiction is discovered during the grievance process, Indiana 4-H Program policy shall be followed in determining the grievance outcome.

1. Grievances are made by completing the Indiana 4-H Grievance/Appeal form with the burden of proof being the responsibility of the individual filing the completed grievance/appeal form and supporting documentation shall be presented to the president of the 4-H policy-making body (e.g., 4-H Council) or the Purdue Extension Educator who works with the 4-H Program. (NOTE: concerns regarding staff, volunteers, members, or other individuals are not issues for which a grievance may be filed. 4-H volunteers are assigned by the 4-H Extension Educator. Concerns regarding 4-H volunteers, members, or other individuals should be addressed directly with the Purdue 4-H Extension Educator.)
2. Grievances pertaining to 4-H activities, programs or projects shall be filed within 14 days of an incident or Grievances pertaining to county fair related issues are often time-sensitive and must be filed within 24 hours of the incident.
3. The grievance process occurs in the county where the issue or concern arises and offers two opportunities for a concern to be heard and reviewed.
 - A. The grievance is initially heard by an unbiased, representative grievance sub-committee of approved 4-H Volunteers. It is the Purdue Extension Educator assigned to 4-H Programming who shall annually work with the chair of the county 4-H Council to determine this committee's membership to include a combination of 3-6 of the following individuals: one representative of the 4-H Council; two 4-H volunteers serving as a 4-H club organizational leader; one member of the County Extension Board; one 4-H volunteer knowledgeable in the subject matter (project) of concern (this individual will vary dependent on the issue raised with the grievance); one youth representative; and up to three community leaders. The Purdue Extension Educator assigned to 4-H shall convene the group.
 - B. The person filing a grievance may appeal a decision of the 4-H Grievance Committee to the State 4-H Program Leader or The Program Leader or designee will review the facts in evidence and render a decision. This is the second and **final level** in the appeal process.

****** The intent of a two-level process is to assure different individuals have the opportunity to hear and act on the grievance. ALL individuals involved at any level of the grievance procedure are reminded of the importance of keeping discussions regarding grievances confidential.

SUBJECT TO CHANGE - last updated 4-22-2025

To maintain the confidentiality of the parties involved, the grievance hearings at each level will be closed to the public. Only the individuals who have filed the grievance, the members of the grievance committee, and the Purdue Extension Educators will be present during each level of the grievance process, ***The grievance process is internal to the Indiana 4-H Youth Development Program and meetings of the grievance committees are not subject to Indiana's Open-Door Policy.

The Purdue Extension Educator assigned to work with the 4-H Program has the obligation to inform all parties that there is a grievance procedure if there are disagreements with policies.

The practice of charging fees from those filing grievances shall be eliminated and all counties will utilize the Indiana 4-H Grievance/Appeal Form as part of the grievance process.

Indiana 4-H Aggressive Dog Policy

The safety and well-being of 4-H members and volunteers is a primary concern with all Indiana 4-H Program opportunities. Families should err on the side of caution in selecting a dog for the 4-H member to exhibit. A dog that has a known history of aggression or biting is not appropriate for involvement in the 4-H Program. On occasion, the 4-H member may have difficulty managing their dog within the 4-H Program. The following guidance has been provided for the Indiana 4-H Dog Program as the owner/exhibitor of the dog bears responsibility for the dog's actions. In the subsequent policy, the term "4-H Dog Personnel" will include County 4-H Volunteers, County Extension Educators, State 4-H Staff and appropriate County and State Fair Directors.

A dog that bites a human or another dog at any 4-H Dog Event must be immediately removed from that event by the 4-H member and will subsequently be excused from the 4-H Program. The member should be directed by 4-H Dog Personnel on-site to remove the dog if the member does not willingly. If a determination is made by the 4-H Dog Personnel that a dog bit in self-defense, it may be allowed to remain at the 4-H Dog Event.

Dogs that display other signs of aggression, including but not limited to barking and standing ground, growling, lunging and snapping will be given one verbal warning. They will be removed from the event after the second violation at the same event. To be removed from a 4-H Dog Event, there must be two violations at the same event.

Any dog that is removed from a 4-H Dog Event due to aggressive behavior will be placed on probation for 2 weeks. Written notification of the probation will be given to the 4-H member. The 2-week period will start upon written notification to the 4-H member. While on probation, the 4-H Dog Personnel and the 4-H member and parents will work together to determine the best course of action for the dog. This may include (but is not limited to) working individually with the dog and 4-H member, asking the 4-H member to use a different dog or having the 4-H member attend events without their dog. At the end of the designated probation period, 4-H Dog Personnel will decide regarding the dog's return to 4-H Dog Events.

Dogs that are removed from a 4-H Dog Event twice will be immediately excused from the 4-H program and will not be allowed to re-enter. Excusing a dog from the 4-H Program is rare but could be necessary for the safety of 4-H members, volunteers, and other participating dogs. Should a dog be excused from the program, it must be remembered that the action is against dog and not the 4-H member. 4-H Dog Personnel should look at many solutions and encourage the 4-H member to attend classes without their dog while training it at home or potentially bringing another dog to 4-H events. 4-H members will always be welcome in every other part of the dog project.

In the event that a dog is removed from a 4-H Dog Event or excused from the 4-H program, 4-H Dog Personnel should report such to the State 4-H Office so that the information is available at all county 4-H dog programs and the Indiana State Fair.
