5. Use the same routine at the fair that you do at home. Feed at the same time. After 30 minutes, remove any feed that the animal has not eaten. Remember, your animal will usually only eat _____ as much at the fair as it does at home.

1. Three of the six pillars of character that is a part of the show ethics in 4-H includes:

_____ Judge people on their merits or good things they do.

_____ Use the same rules or standards for everyone.

_____ Treat others as you want them to treat you.

2. What is the condition caused by a build up of gas in the rumen? _____

3. Genetics play an important part of improving any beef herd. What are the top two heritability estimates and traits.

Trait

Heritability %

4. List one of the four ways to treat bloat in cattle:

5. Foot Rot causes swelling and lameness. A good treatment is a _____
_____ foot bath. _____ are also used to treat foot rot.

Match the cattle diseases

WARTS

Occurs when the calf's resistance is low because of stress, allowing bacteria or viruses to start an infection.

BVD

Causes swelling and lameness. Skin between the toes and around the foot turns red, and the foot will have a foul odor.

CALF SCOURS

Occurs when there is a low level of magnesium in the blood-stream of the cow, usually when cattle are turned onto a fresh pasture and are nursing a calf.

FOOT ROT

Is a contagious virus that causes diarrhea, abortions, weak calves, high temperature, discharge from nose, and problems in the intestine.

GRASS TETANY

Caused by an infectious virus. Serious cases are unsightly and painful.

Horses, cats, and dogs are not required to complete numbers 2 and 3.
