1. The two types of injections given to cattle include the _____ injection and _____ injection.
2. Cattle have a four compartment stomach. The four parts are _____, _____, _____ and _____.
3. Learning how to give an injection is an important skill. Needles are similar to wire in that they are sized by gauge. The smaller the number (12 or 14 gauge), the larger the needle. The larger the number (20 or 22 gauge), the smaller the needle.
4. What size needle would you use for a normal injection? Circle the best answer.
 - A. Plastic syringe, 12 gauge needle, 1 ¼ inches long
 - B. Plastic syringe, 16 – 18 gauge needle, 1 ¼ inches long
 - C. Plastic syringe, 22 gauge needle, 1 ¼ inches long

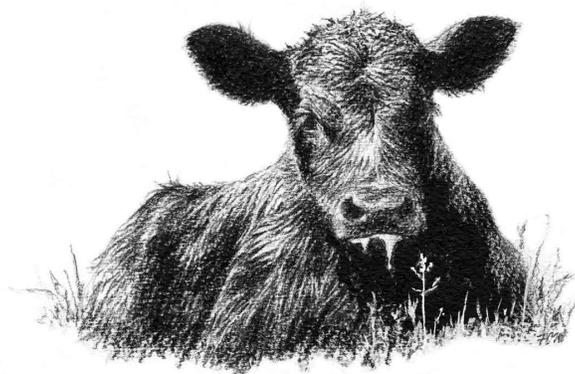

5. Look up web resources for the following:

Breed Association

Web Site

North American Limousin Foundation
 American Hereford Association
 American Shorthorn Association

6. Minerals needed in small amounts are called _____.
 Examples of these are calcium and phosphorus.

Horses, cats, and dogs are not required to complete numbers 2 and 3.

Animals Owned

Animals Name	Breed	Sex	Date of Birth	Date Obtained

1. Expenses for the Animal(s)

Animal(s) *if purchased* \$ _____
 Feed \$ _____
 Bedding \$ _____
 Vet \$ _____

Total Expenses \$ _____

2. Income from Animal(s) *market animals sold* \$ _____

Estimated value of animal to be sold in 4-H Auction \$ _____

Total Income \$ _____

3. Value of breeding animals

Value of your cat or dog

Asset Value \$ _____

\$ _____

Net Profit / Loss \$ _____

Member Signature: _____

Parent Signature: _____

Leader Signature: _____
