Office of Indiana State Chemist - Pesticide Section

The pesticide section of OISC regulates the distribution and application of pesticides in the State of Indiana. The pesticide section is charged with the administration and enforcement of Indiana pesticide laws (I.C. 15-16-4 and I.C. 15-16-5) and also represents the U.S. Environmental Protection Agency (EPA) in Indiana for the purpose of enforcing many provisions of federal pesticide law.

The mission of the Office of Indiana State Chemist Pesticide Section is to protect the public and the environment by ensuring that pesticide products distributed within the state are properly formulated and labeled and that individuals who apply pesticides have met minimum competency standards, when required, and apply those pesticides without causing harm to people or property.

FARMERS - Private Applicators

A Private Applicator is:

- Anyone who either applies pesticides or applies manure from a Confined Feeding Operation (CFO) to property they own, rent or otherwise control, for the purpose of producing an agricultural commodity.
- Any private applicator wishing to buy and use Restricted-Use Pesticides (RUP) must be certified by passing the "Core" exam.
- Any private applicator wishing to buy and use "RUP" fumigants must also pass the Category 7d (Fumigation) exam.
- Any private applicator wishing to apply manure from a CFO must be certified by passing the [Category 14](#) (Agricultural Fertilizer Management) exam.
